## • Skills

Differentiated instruction

Performance evaluation

Career and  
Technology vocational  
training

Data Entry

Computer Skills

Analytical and Critical  
Thinking

Decision Making

Time Management

Dependable and Responsible

Technology Lead Teachers manage, acquire, and respond to new needs within the technological infrastructure of the electives and vocational programs for high school grade levels 7-12. I excel at prioritizing company needs and developing policies that allow corporate technology to sustain itself. Strong resource allocation skills as well as the ability to develop situation reports that can be used to determine the future direction of company technology.

## • Work History
